**Subject:** New User Interface Coming to Supplier Portal

---

PANDUIT

Dear Valued Supplier,

As part of our ongoing efforts to enhance user experience and align with Oracle's next-generation platform, Panduit will implement a user interface upgrade to the Supplier Portal on **October 17, 2026.**

Oracle's new user experience provides a modernized look and feel with updated navigation, landing pages, and screen layouts. Benefits include better search and task management capabilities, along with cleaner page designs allowing users to complete daily work more efficiently.

**What You Need to Know**
To ensure a smooth transition, Panduit will provide job aids, reference materials, and other helpful resources prior to launch. We encourage users to review these materials and familiarize themselves with the updated interface.

Watch for additional communications and updates that will include a **job aid and other reference materials.**

We appreciate your continued partnership and support as we transition to this enhanced user experience. If you have any questions, please reach out to your Panduit procurement contact.

Thank you,
Panduit Leadership
