

# Gen 7 SAN Director Solution

The future of fiber is here. The Gen 7 helps you move faster, scale smarter and keep operations running smoothly.

## Here's how it helps:

### More fiber, less wasted space

Increase density without expanding your footprint

### Faster installs

Cut deployment time and reduce technician interventions

### Better organization

Structured cabling that makes troubleshooting easier

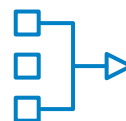

### Ready for the future

Built to handle AI-driven workloads and high-speed storage growth

### Higher fiber density

Double your capacity without increasing rack space

### Pre-terminated SN connectivity

Faster deployment with plug-and-play simplicity

### Better airflow & structured cabling

Less congestion, easier troubleshooting
