The Panduit PanZone® TrueEdge™ Wall Mount Enclosure
An enclosure that delivers storage solutions that make a difference.

TINLEY PARK, IL (July 27, 2020) – Panduit launches the PanZone® TrueEdge™ Wall Mount Enclosure answering the demand for a configurable solution that benefits Edge applications. The search for a low profile, high density solution to replace or extend network closets comes to a halt as this enclosure eliminates a rack or cabinet and can mount servers in confined spaces. Optimization of space moves closets closer to end users, eliminating data and power lag time.

The enclosure's structurally engineered design provides space for up to 36" of active equipment depth, has a static load rating of 400lbs, and a thermal rating of up to 4,000W with only the need for 2 fan kits. The vertical wall mount enclosure is offered in various sizes allowing customization opportunities to fit the needs of the user and deliver storage solutions that make a difference.

Panduit is not just a brand, but a promise to bring quality products that efficiently and effectively support your network infrastructure. To learn more about the PanZone® TrueEdge™ Vertical Wall Mount Enclosure, click [here](#).

About Panduit: Since 1955, Panduit's culture of curiosity and passion for problem solving have enabled more meaningful connections between companies' business goals and their marketplace success.
